

NUSRAT JAHAN LIZA
MERN Stack Web Developer
nj6111449@gmail.com | +8801816378257 | Cumilla, Bangladesh
[LinkedIn](#) | [GitHub](#)

CARRIER OBJECTIVE

MERN Stack Developer and Computer Science & Engineering student with practical experience in developing full-stack web applications using MongoDB, Express.js, React, and Node.js. Skilled in building RESTful APIs, responsive and user-centric interfaces, and scalable backend systems. Strong understanding of modern web development practices with a focus on writing clean, maintainable, and production-ready code. Passionate about continuous learning and improving development efficiency.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3 **Frontend:** Next.js, React, Tailwind CSS, Responsive Design
Tools: Git, GitHub, Vercel, VS Code, Netlify **Database & Auth:** MongoDB, MySQL, JWT, Better Auth
MERN Stack: MongoDB, Express.js, React, Node.js

PROJECTS

SportNest — Sports Facility Booking Platform | [Live](#) | [GitHub](#)

Stack: Next.js, Node.js, MongoDB, Tailwind CSS, Better Auth, JWT

- Developed a full-stack sports facility booking platform with secure authentication and role-based access control for users and facility owners.
- Implemented facility listing, booking management, and user dashboard features using RESTful APIs and MongoDB for efficient data handling.

QurbaniHat — Online Qurbani Animal Marketplace | [Live](#) | [GitHub](#)

Stack: Next.js, Node.js, MongoDB, Better Auth, Tailwind CSS

- Solved traditional livestock trading issues by building a digital platform for buying and selling qurbani animals with improved accessibility and user experience.
- Implemented secure authentication, role-based access, and core features like search, filtering, and listing management using a responsive and scalable architecture.

KeenKeeper — Friendship Management & Relationship Tracker | [Live](#) | [GitHub](#)

Stack: Next.js, React.js, Tailwind CSS, LocalStorage, Recharts, React Toastify

- Developed a modern friendship management system to track interactions (calls, messages, video chats) in a structured timeline with improved organization and usability.
- Implemented automatic activity logging with search/filter functionality and built an analytics dashboard using Recharts for visualizing user engagement patterns with a responsive UI/UX.

EDUCATION

B.Sc. in Computer Science & Engineering | 2023 – Present
Bangladesh Army International University of Science and Technology (BAIUST)

LANGUAGES

- Bengali — Native
- English — Professional proficiency
